Our Mini High Pressure Water Jet is coming with petrol engine suitable for cleaning drain and sewer pipe till 200 mm.

This machine will take your business to the next step and handle all the in-house connection and building maintenance.

It comes with Heavy-duty trigger valve gun, with brass valve and stainless steel connection tube. The gun which is connected to the nozzle rotates a powerful, zero degree spray pattern. By spinning the discharge water, the spray adds additional scrubbing ability to the cleaning process.

24mm
