## MULTI SIZE PIPE PLUGS 2,5 BAR

These plugs are molded of special NR-SRB rubber, reinforced with Kevlar tire cording. The working pressure of all plugs is tested three times to ensure durability and safety. Due to their light weight and short length, pipe plugs are easy to handle even in large diameter sizes. Available in multi-size versions for pipes from 35 to 1200mm in diameter. All plugs are equipped with quick-connect couplings and nipples. Reinforcement sleeves are available for heavy duty use.

## THESE TYPE OF PIPE PLUGS CAN BE MADE IN NBR, CR OR EPDM ACCORDING TO CUSTOMER NEEDS
